

The *Extreme Weather Skylights* from Sun-Tek, our most recent addition to a family of high quality skylights, has the widest and most complete range of hurricane, tornado, high velocity and impact units of any skylight manufacturer to date !

- These high impact & wind velocity units are available for 120 mph (or greater) wind zones. Sun-Tek's standard line will satisfy all other zones.
- From the Sun-Tek Tube... to insulated Classic Glass... to Polycarbonate, Sun-Tek can offer the right application for any wind zone requirement.
- Concerned about future coastal zones ? - We are confident you will not need to go anywhere but to Sun-Tek's *Extreme Weather* line to satisfy all your extreme weather skylight needs.

Flagler County Wind Speed Line

TESTED ?

The Sun-Tek *Extreme Weather Skylights* have passed the strictest testing of the Metro Dade approval process and meet or exceed all Florida Building Codes.

Flagler County Wind Speed Lines Description

Begin at the intersection of the centerline of U.S. 1 and the St. Johns County line, then southerly along the centerline of U.S. 1 to the intersection of the centerline of Matanzas Woods Parkway, then easterly along the centerline of Matanzas Woods Parkway to the intersection with the centerline of Belle Terre Parkway and Belle Terre Boulevard to the intersection with the centerline of U.S. 1, then southerly down the centerline of U.S. 1 to the intersection with the line between sections 31 & 32 of T.12.S & R.31.E., then south along said section line to the common boundary line of Flagler & Volusia County

Any portion of Flagler County lying to the east of the above-described wind speed lines shall be deemed to have a basic wind speed of 120 mph for the purposes of the Florida Building Code. Any area of Flagler County lying to the west of such line shall be deemed to have a wind speed of 110 mph for the purposes of the Florida Building Code. Any lot, as defined by the Flagler County Land Development Code, having any portion of such lot on both sides of the above-described wind line shall be deemed to be in the easterly side of the line for the purposes of the Florida Building Code.

Ordinance Adopted December 17, 2001
Effective January 1, 2002

Flagler County Wind Speed Line

- Flagler County Wind Speed Line
- Major Roads
- USGS 1:24,000 Roads
- Public Land Survey System
- County Boundary

Satisfied by conventional Sun-Tek Classic, Dura & Sun-Tek Tube skylight systems

Requires Sun-Tek *Extreme Weather* line of High Wind & Impact skylight systems for building code requirements
