

The *Extreme Weather Skylights* from Sun-Tek, our most recent addition to a family of high quality skylights, has the widest and most complete range of hurricane, tornado, high velocity and impact units of any skylight manufacturer to date !

- These high impact & wind velocity units are available for 120 mph(or greater) wind zones. Sun-Tek's standard line will satisfy all other zones.
- From the Sun-Tek Tube... to insulated Classic Glass... to Polycarbonate, Sun-Tek can offer the right application for any wind zone requirement.
- Concerned about future coastal zones ? - We are confident you will not need to go anywhere but to Sun-Tek's *Extreme Weather* line to satisfy all your extreme weather skylight needs.

TESTED ?
 The Sun-Tek *Extreme Weather Skylights* have passed the strictest testing of the Metro Dade approval process and meet or exceed all Florida Building Codes.

Hillsborough County Wind Speed Lines

Hillsborough County Wind Speed Line Description

Wind Speed Line information provided by Hillsborough County Development Services Division and is based on ASCE 7-98 wind lines as adopted by Hillsborough County Ordinance No. 01-33. Wind speeds in 120+ MPH zone may be interpolated with approval of Hillsborough County Development Services Division and certified under seal.

Ordinance Effective March 1, 2002
