

The *Extreme Weather Skylights* from Sun-Tek, our most recent addition to a family of high quality skylights, has the widest and most complete range of hurricane, tornado, high velocity and impact units of any skylight manufacturer to date !

- These high impact & wind velocity units are available for 120 mph (or greater) wind zones. Sun-Tek's standard line will satisfy all other zones.
- From the Sun-Tek Tube... to insulated Classic Glass... to Polycarbonate, Sun-Tek can offer the right application for any wind zone requirement.
- Concerned about future coastal zones ? - We are confident you will not need to go anywhere but to Sun-Tek's *Extreme Weather* line to satisfy all your extreme weather skylight needs.

Putnam County Wind Speed Line

Putnam County Wind Speed Lines Description

Putnam County hereby establishes a wind speed contour line, which shall separate the 100 mile per hour (mph) wind zone from the 110 mph wind zone being more particularly described as follows:

Beginning at the intersection of the Clay/Putnam boundary line to the intersection with the centerline right of way (R.O.W) of U.S. 17; thence southerly along said R.O.W. to the intersection with the centerline of Rice Creek; thence easterly along the meandering centerline of said Rice Creek to the intersection with the centerline of the St. Johns River; thence southerly along the meandering centerline of the St. Johns River to the intersection with the centerline of Dunn's Creek; thence southeasterly along the meandering centerline of said creek to the northeastern most boundary of Putnam County, Florida establishing all properties east of such contour line to be rated in the 110 mph wind zone and all properties west to be rated in the 100 mph wind zone.

Ordinance Adopted December 26, 2001
Effective January 1, 2002

Putnam County Wind Speed Line

-  Putnam County Wind Speed Line
-  Major Roads
-  Rivers, Lakes, Streams
-  County Boundary

TESTED ?

The Sun-Tek *Extreme Weather Skylights* have passed the strictest testing of the Metro Dade approval process and meet or exceed all Florida Building Codes.

Satisfied by conventional Sun-Tek Classic, Dura & Sun-Tek Tube skylight systems

Requires Sun-Tek *Extreme Weather* line of High Wind & Impact skylight systems for building code requirements
