

# Clay County Wind Speed Lines

The *Extreme Weather Skylights* from Sun-Tek, our most recent addition to a family of high quality skylights, has the widest and most complete range of hurricane, tornado, high velocity and impact units of any skylight manufacturer to date !

- These high impact & wind velocity units are available for 120 mph (or greater) wind zones. Sun-Tek's standard line will satisfy all other zones.
- From the Sun-Tek Tube... to insulated Classic Glass... to Polycarbonate, Sun-Tek can offer the right application for any wind zone requirement.
- Concerned about future coastal zones ? - We are confident you will not need to go anywhere but to Sun-Tek's *Extreme Weather* line to satisfy all your extreme weather skylight needs.

**Clay County Wind Speed Lines Description**

The following wind speed lines applicable to Clay County, Florida, are hereby established pursuant to the requirements of Section 109(3) of Chapter 2000-141, Laws of Florida:

The one hundred ten (110) mile per hour wind speed line shall lie co-extensive with the entire easterly boundary of Clay County, said boundary running south from the Duval County line at the northeast corner of Clay County to the Putnam County line at the southeast corner of Clay County; and

The one hundred (100) mile per hour wind speed line shall lie co-extensive with the entire westerly boundary of Clay County, said boundary running south from the Duval County line at the northwest corner of Clay County to the Putnam County line at the southwest corner of Clay County.

Ordinance Adopted December 11, 2001  
Effective January 1, 2002

**Clay County Wind Speed Lines**

- Clay County Wind Speed Lines
